PEG.MARKETS REFRESH · 20 FRAMES · 5 GROUPS · ROUND 1

peg.markets, in frames

The peg.markets app as a wireframe sheet: Swap, Markets and Channels for anyone and for a position holder, the Sharp Curve and Epoch Economics research pages, the curator's caps and the buffer's weekly settlement, and the states that keep it honest — drawn in the µi Sharp outline from the owner's PDF, the demo UI build and the demo specification. Every frame has an id the design brief cites (`docs/DESIGN-CHALLENGE.md`); the sheet prints to `docs/refresh-wireframe.pdf`.

ANYONE · 8 FRAMES

Anyone

No wallet needed to browse. Swap, Markets and Channels show public data; personal balances read "unknown". Connect wallet is a secondary action.

RESEARCH · 2 FRAMES

Research

Sharp Curve and Epoch Economics explain the engine. Nothing here touches the wallet.

W-19 Sharp Curve `/curve`

9:41 ●●●● ▲ ▮

peg.markets Simulation Connect wallet ···

Sharp Curve

Three ideas, one page. Drag the controls; nothing here touches your wallet.

1 · ANCHORED TO THE ORACLE

The price comes from the oracle, not the reserves. A trade pays a fee.

2 · STRUCTURAL IMBALANCE

−100 % of cap flow +100 % of cap

fee = 5 bp + 45 bp × lean² · markers: USD 7.6 bp · EUR 6.0 bp · JPY 5.0 bp · AUD 6.0 bp

Trade size **30,000 pegUSD**

3 · THE ENGINE, ONE LINE EACH

A trade against the lean pays less; a trade with it pays more. A trade cannot push flow past the cap.

W-20 Epoch Economics `/epochs`

9:41 ●●●● ▲ ▮

peg.markets Simulation Connect wallet ···

Two years, replayed

Real Aerodrome FX flow, August 2024 to July 2026, replayed through PEG markets with a $10M book.

Recorded results load on open

Historical private-fork tests, not your current balances, live quotes or a return forecast. Gas is separate.

OPERATOR · 2 FRAMES

Curator and buffer

Market creation and caps for the curator; the weekly settlement for the buffer. Each change states the law it touches.

W-12 Curator · market and caps `/app/markets/usd/caps`

9:41

peg.markets | Curator | s 0x7b7c…9e21 | ···

USD market · caps

Flow this week **120,000 pegUSD · 24.0 % of cap**

Outstanding debt **1,520,000 pegUSD · 76.0 % of ceiling**

Flow cap · pegUSD per week

600,000

Debt ceiling · pegUSD

2,000,000

The law being changed: a trade cannot push this week's flow past the cap. Current 500,000 → 600,000.

Review change
